

DINESHKUMAR PURUSHOTHAMAN

Full Stack MERN Developer

+91 9087065451 - dineshkumar18251@gmail.com - LinkedIn - Portfolio - Chennai

PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience designing and developing scalable web applications using the MERN Stack (React.js, Node.js, Express.js, MongoDB). Experienced in building secure REST APIs, financial platforms, and fraud prevention systems. Skilled in integrating LLM APIs (OpenAI, Claude), Prompt Engineering, AI document processing, Vector Search, and LLM-powered workflows into scalable applications. Strong foundation in clean architecture and Agile development practices.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux, Redux Toolkit, React Hooks, Bootstrap, Responsive Web Design, Axios

Backend: Node.js, Express.js, RESTful API, Microservices Architecture, JWT Authentication, OAuth, WebSockets, File Upload (Multer), Authentication & Authorization, Middleware Development, API Integration

Database: MongoDB, Mongoose, Aggregation Pipeline, Query Optimization, Database Design, Indexing, Schema Design, Redis (Caching), MongoDB Atlas

AI & LLM Technologies: OpenAI API, Claude API (Anthropic), Google Gemini API, Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Search, Vector Databases (Pinecone/FAISS), Vector Indexes, LangChain, AI Document Processing, AI-Powered Data Extraction, LLM Workflows, Embeddings, Semantic Search

Cloud & DevOps: Docker, Jenkins, Azure DevOps, CI/CD Pipelines (Basic), AWS (EC2, S3 – Basic), Kong API Gateway, Grafana, SonarQube

Tools & Version Control: Git, GitHub, Bitbucket, VS Code, npm, Postman, Jira, Adobe InDesign

Testing & Quality: Unit Testing, ESLint, Debugging, Code Review, Performance Optimization, Error Handling, Logging

Methodologies: Agile, Scrum, Software Development Life Cycle (SDLC), Clean Code Practices

PROFESSIONAL EXPERIENCE

Full Stack Developer, Longshore Labs Private Limited

Dec 2024 – Present

Project: ALPINE – Fund & Investors Onboarding and Compliance Platform

- Developed a financial onboarding platform for funds and investors, including KYC/AML verification and transaction processing workflows.
- Engineered a real-time reporting engine to generate financial statements and transaction history reports, improving data visibility for compliance teams.
- Developed an AI-powered Smart Onboarding module using the OpenAI API to auto-fetch and populate contact and business data from uploaded documents, reducing manual data entry and review time.
- Implemented an AI document analysis feature enabling users to upload files and query document contents using natural language.

Application Developer, IppoPay Technologies Private Limited

Jul 2022 – Sept 2024

Project: TUTELAR – Fraud Prevention Platform

- **AML Risk Assessment:** Developed an Anti-Money Laundering (AML) risk assessment module to evaluate individual and business profiles, automate compliance checks, and identify potential fraud risks.
- **Dispute Management:** Designed and implemented dispute management workflows to investigate, track, and resolve fraudulent transaction cases, improving operational efficiency and compliance.
- **Ticket Management:** Built an internal ticketing system for issue tracking, workflow automation, task assignment, and cross-functional team collaboration.

Associate – InDesign, TNQ Technologies Private Limited

Jul 2017 – Apr 2022

- Designed book layouts for print and web platforms using Adobe InDesign, ensuring visual consistency and readability across formats.

EDUCATION

Bachelor of Computer Applications (BCA), A.M. Jain College, University of Madras

June 2014 – Apr 2017

Percentage: 79%

CERTIFICATIONS

Web Design and Development Course, FITA Academy - (3-Month Program)

Feb 2022 – May 2022
