

DINESHKUMAR PURUSHOTHAMAN

Full Stack Developer (MERN / AI)

+91 9087065451 - dineshkumar18251@gmail.com - LinkedIn - Portfolio - Chennai

PROFESSIONAL SUMMARY

Full Stack Developer (MERN / AI) with 4+ years of experience building and deploying production-grade web applications and AI-powered solutions. Strong expertise in React.js, JavaScript (ES6+), Node.js, Express.js, and MongoDB, with hands-on experience developing secure REST APIs and scalable backend services for financial platforms. Experienced in integrating LLMs, including OpenAI API, into production systems using LangChain, RAG, prompt engineering, and vector search with Pinecone. Skilled in developing AI-powered document processing, intelligent chatbot workflows, and automation solutions. Proficient in Agile development, performance optimization and secure application design.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Redux Toolkit, React Hooks, Bootstrap, Axios, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, Fetch, Microservices Architecture, JWT Authentication, OAuth, WebSocket, Multer File Upload, Middleware Development, API Integration
Database: MongoDB, Mongoose, Aggregation Pipeline, Query Optimization, Schema Design, Indexing, Redis (Caching)
AI & LLM Technologies: Generative AI, Agentic AI, Large Language Models (LLMs), OpenAI API, LangChain, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents, Embeddings, Vector Search, Semantic Search, Vector Indexes, AI Document Processing, AI-Powered Data Extraction
Cloud & DevOps: AWS (EC2, S3, Amplify), Docker, Jenkins, Azure DevOps, CI/CD Pipelines, Kong API Gateway,
Tools & Version Control: Git, GitHub, Bitbucket, VS Code, npm, SonarQube, Postman, Jira
Testing & Quality: Unit Testing, ESLint, Debugging, Code Review, Performance Optimization, Error Handling, Logging
Methodologies: Agile, Scrum, Software Development Life Cycle (SDLC), Clean Code Practices

PROFESSIONAL EXPERIENCE

Full Stack Developer, Longshore Labs Private Limited, Chennai

Dec 2024 – Aug 2026

Project: ALPINE – Fund & Investors Onboarding and Compliance Platform

- **Fund & Investor Onboarding:** Developed a fintech platform for fund and investor onboarding with end-to-end onboarding workflows covering CDD/KYC, PEP, sanctions, risk assessment scoring, regulatory screening, approval processes, and investment transaction processing.
- **Financial Reporting & Billing:** Built a real-time financial reporting engine supporting complex reports for share buy/sell transactions, investor statements, transaction history, billing, invoices, and financial statements.
- **AI Smart Onboarding:** Built an AI-powered document processing solution using OpenAI API to automatically extract person and business information from uploaded documents, reducing manual data entry.
- **AI Document Intelligence:** Implemented an AI-powered document Q&A solution using RAG, embeddings, vector search, and LLMs, enabling users to query uploaded documents using natural language.

Tech Stack: React.js, JavaScript, Node.js, Express.js, Bootstrap, MongoDB atlas, OpenAI API, LangChain, JWT.

Application Developer, IppoPay Technologies Private Limited, Chennai

Jul 2022 – Sept 2024

Project: TUTELAR – Fraud Prevention Platform

- **AML & OGM:** Developed risk assessment workflows with PEP, sanctions, adverse media, and fraud-risk checks before onboarding, along with ongoing monitoring (OGM) for continuous risk assessment.
- **Dispute Management:** Developed a dispute management UI supporting manual dispute creation and bulk dispute creation through CSV file uploads; implemented CSV validation, parsing, data processing, and error handling, with BullMQ and Cron Jobs for background processing and automated merchant email notifications.
- **Ticket Management:** Developed a ticketing system for ticket assignment, prioritization, tracking, status management, and workflow handling, with customizable ticket categories, priorities, and user access controls.
- **Dynamic Templates:** Developed a template management system enabling users to create, customize, configure, and manage reusable templates based on different business requirements.

Tech Stack: React.js, JavaScript, Node.js, Express.js, MongoDB, Mongoose, Bootstrap, REST APIs, JWT, BullMQ, Kong Gateway, Cron Jobs, CSV Processing, SonarQube, Unit Testing, Git.

InDesign Paginator, TNQ Technologies Private Limited, Chennai

July 2017 – April 2022

- Skilled in designing and refining book layouts and preparing final files for both print and digital publication.

EDUCATION & CERTIFICATIONS

Web Design and Development Course, FITA Academy, Chennai

Feb 2022 – May 2022

Bachelor of Computer Applications (BCA), A.M. Jain College, University of Madras – 79% **June 2014 – April 2017**
